MEAT THE Best™

The Dakota Difference

Dakota Provisions™ prides itself in the way we humanely raise and handle all our birds. A few of the ways we are consistently able to obtain this status is through our handling process which include but are not limited to: our birds are grown within one day's travel to DP Facility, we have proprietary custom built live haul trucks for comfort and safety, implementation of a humane loading system, the birds reside in temperature controlled covered living quarters, our live dock is continually under surveillance and our patented Controlled Atmosphere Stunning (CAS) which allows for a gentle further processing method.

- 100% vegetarian fed, corn & soy
- Turkeys raised on family farms
- USDA process verified
- SQF Level 3 Certified
- Humane handling & harvesting protocols
- Controlled atmosphere stunning
- Non-GMO project verified

Packaging

RETAIL SOLUTIONS

Dakota Provisions™ has capabilities for your foodservice and retail packaging needs. One of the newest retail packages available for fresh turkey items include the use of the Darfresh skin Pack technology which creates a vacuum skin pack that fits around the product like a second skin. Some of the benefits for the skin pack include the ability for retail vertical display, unobstructed view of the product, the juices are locked in to prevent unhygienic leaks and product stays fresh in the freezer with no need for repackaging.

Features and Benefits of our skin pack include but are not limited to:

- Better Retail Merchandising via vertical display
- Appealing in the case - tight vacuum fit seals in freshness and the top web surrounds the protein like a second skin, resulting in a natural, fresh color and unobstructed view of the product
- Easy to open with a variety of tray sizes enabling individually-packed portions
- Leak-proof seal - juices are locked in to prevent unhygienic leaks
- No freezer burn - product stays fresh in the freezer with no need for repackaging
- Consumer Convenience - In tray seasoning/Marinating
- More sustainable - recyclable tray is attractive to consumers
- 360° Product Visibility (with clear tray option)

Other retail packages available include:

- Logs up to 60" in length
- Modified Atmosphere Packaging (MAP)
- Vacuum packages
- Bulk pack
- *Zipper & Slider Zipper packages
- *TUB products
- *Peggable packages
- Foil and nets

**Deli meats are available in fluffed, folded, staggered, stacked, waterfall retail configurations.*

FOODSERVICE SOLUTIONS

Various case packs and case weights are available as well as tote up to 1500 lbs. for further processing.
